*Our market place modules allow you to take your CitrusStore product catalogue to new sales channels.*

*The Amazon module supports the following:*

- Automatic listing of products in the Amazon Marketplace;
- Listing and delisting items as they come into or out of stock, fully automated without any visits to SellerCentral;
- Automatic download of orders, including compatibility with our Order Processing Module;
- Automatically marks orders as dispatched in Seller Central, saving hours of administration;
- Full analysis of Amazon sales via our Executive Dashboard, so you can easily see if you are making any money.

*The eBay module supports:*

- Automatic listing of products on eBay;
- Listing and delisting items as they come into or out of stock, in real time via the eBay API;
- Automatic download of orders, including compatibility with our Order Processing Module;
- Automatically marks orders as dispatched in eBay, saving hours of administration.
